CITY OF FOLKSTON
WATER AND WASTEWATER ORDINANCE
ORDINANCE # 01-2023

An ordinance establishing water and wastewater rate schedules and service rules and regulations for the City of Folkston, Georgia; providing for penalties for service cut-offs upon failure to pay bills or other violations of the provisions of this ordinance; providing for cut-on and cut-off fees; providing restrictions and a fee structure for disposal of waste water originating outside the normal wastewater distribution system of the City of Folkston; and for other purposes.

SECTION 1: RATE SCHEDULE

SEE ATTACHED FOR WATER AND WASTEWATER FEES AS PRESENTED BY THE GEORGIA RURAL WATER ASSOCIATION AND ADOPTED BY THE MAYOR AND COUNCIL OF THE CITY OF FOLKSTON, GEORGIA.

****** WASTEWATER RATES ARE BASED ON METERED WATER CONSUMPTION ******

SECTION 2: APPLICATION FOR WATER SERVICE

The consumer shall make application for water service in person at City Hall and at the same time shall make a security deposit of One Hundred Twenty-Five Dollars (\$125.00) for property owners and One Hundred Seventy-Five Dollars (\$175.00) for renters.

In making application for water service, the applicant shall provide such identifying information as deemed appropriate (Driver's License, photo I.D. and Social Security Card) by the City of Folkston, to insure the identity of the applicant and an accurate description of the physical location of the service to be placed.

Property owners must provide closing documents to prove ownership of property where service will be placed and property renters must provide a lease agreement signed by the property owner before service will be established.

SECTION 3: MINIMUM CHARGES

The minimum charge, as provided in the rate schedule, shall be made for each connection. Water furnished for a given lot shall be used on that lot only, except for fire protection. The City of Folkston shall not under any condition furnish water free of charge to anyone.

SECTION 4: CITY'S RESPONSIBILITY AND LIABILITY

The City of Folkston shall run a service line from its distribution line to the property line where the distribution line exists or is to be constructed and run immediately adjacent and parallel to the property to be served. A minimum connection fee of Five Hundred and Fifty Dollars (\$550.00) shall be paid in advance for a 3/4 x 5/8 meter.

If the City does not have a distribution line adjoining the property where water service is requested the property owner must pay the cost as determined by the City for materials and labor to install a distribution line from the existing water line to his/her property. The City shall be the sole judge of what size and type distribution line shall be run. A proportionately greater charge than the connection fee cost will be made for a meter of larger dimensions.

a. The City may make connections to service other properties not adjacent to its lines upon agreement between the property owner and the City and payment of the cost for the extension of its distribution lines as may be required to render such services.

b. The City may install its meter at or near the property line or, at the City's option, on the consumer's property within three feet of the property line.

c. The City reserves the right to refuse service unless the consumer's lines or piping are installed in such a manner as to prevent cross-contamination or back-flow. In addition, consistent with water quality standards and/or regulations, the City shall impose requirements such as back-flow preventers, with the cost of such additions to be the burden of the consumer.

In order to protect the functioning of its wastewater distribution and treatment system, the City may require grease traps and pre-treatment devices standard for the industry, with the cost of such devices to be the burden of the consumer. The City shall have sole discretion in the determination of where such devices are required and the approval of devices proposed for installation by the consumer.

d. A meter is required to be installed in the water connection to each building, whether public or private, except for approved fire protection lines. Water furnished by the City of Folkston shall be used for consumption by the consumer, members of his/her household, guests and employees only. The consumer shall not sell water to any other person or permit any other person to use said water, including, but not limited to, the practice of making residence to residence connections with water hoses, pipes, etc. Water shall not be used for irrigation, fire protection nor other purposes, except when water is available in sufficient quantity without interfering with the regular domestic consumption in the area served. Disregard for these rules shall be sufficient cause for refusal and/or discontinuance of service.

* Where the meter or meter box is placed on the premises of a consumer, a suitable place shall be provided by the consumer, unobstructed and accessible at all times to the meter reader.

* The consumer shall furnish and maintain a private shut-off valve on the consumer's side of the meter.

* The consumer's piping and apparatus shall be installed and maintained by the consumer at the consumer's expense, in a safe and efficient manner, and in accordance with the sanitary regulations of the State Health Department, or other competent authority.

* In order to be received as a consumer and entitled to receive water from the City's water system, all applicants must offer proof that any private wells located on their property are not physically connected to the lines of the City's water system, and all applicants by becoming consumers of the City covenant and agree that so long as they continue to be consumers of the City they will not permit the connection of any private wells on their property to the City's water system.

SECTION 5: ACCESS TO PREMISES AND EXTENSIONS OF SYSTEM

- a. Duly authorized agents of the City of Folkston shall have access at all hours to the premises of the consumer for the purpose of installing or removing City property, inspecting piping, reading and testing meters, making cut-on and cut-offs, or for any other purpose in connection with the water service and its facilities and the wastewater service and its facilities.
- b. Extensions to the system shall be made only when the consumer shall grant or convey, or shall cause to be granted or conveyed, to the City of Folkston, a permanent easement of right-of-way across any property traversed by the water and/or wastewater lines.

SECTION 6: DISCONTINUANCE / TRANSFER OF SERVICE

No less than three (3) days notice must be given and a disconnection form signed in person at City Hall to discontinue water and/or wastewater service. The outgoing party shall be responsible for all water consumed up to the time of departure or the time specified for departure whichever is longer. The new occupant shall apply for water service within forty-eight (48) hours after occupying the premises and failure to do so will make him/her liable for payment of the water consumed since the last meter reading.

To transfer service, the consumer must sign a transfer of service form in person at City Hall. Any delinquent bills must be paid in full before the transfer can be completed. All current charges will be transferred to the new account. A service fee of twenty-five (25) dollars must be paid before the transfer.

SECTION 7: METER READINGS, BILLINGS AND COLLECTIONS

Bills to customers for water and wastewater service shall be mailed on such day or days of each month as may be determined desirable by the City. Bills shall be due by 5:00 pm on the 15th of each month. Failure to receive bills or notices shall not prevent such bills from becoming delinquent nor relieve the consumer from payment of the amount due. The failure of water and/or wastewater users to pay charges duly imposed shall result in the automatic imposition of the following penalties:

- a. Non-payment of amounts due by 5:00pm on the due date will result in a penalty of thirty (30) dollars being added to the charges due.
- b. Non-payment within thirty (30) days from the due date will result in the service being shut off from the consumer's property.
- c. Non-payment for forty-five (45) days after the original due date will allow the City, in addition to all other rights and remedies, to terminate agreement, and in such event, the consumer shall not be entitled to receive, nor the City obligated to supply, any water or wastewater service under the agreement. The account will be finalized and the security deposit applied to the unpaid balance on the account.

Service discontinued for non-payment of bills will be restored only after all bills are paid in full, such security deposit as may be required by the Mayor and Council is made, and a service charge of Fifty Dollars (\$50.00) paid for each service reconnected during normal working hours of the Water Department. A service charge of Seventy-Five Dollars (\$75.00) will be assessed for service after normal working hours of the Water Department. There will be no Saturday, Sunday, or Holiday re-connections made.

SECTION 8: SUSPENSION OF SERVICE

When water and wastewater service is discontinued and all bills paid, the security deposit shall be refunded to the consumer by the City.

a. Upon discontinuance of service for non-payment of bills, the security deposit will be applied toward the settlement of the account. Any balance will be refunded to the consumer, however, if the security deposit is insufficient to cover the amount due the City, the City may proceed to collect the balance in the usual manner provided by law for collection of debts.

b. The City reserves the right to discontinue its service without notice for the following additional reasons:

- (1) To prevent fraud or abuse;
- (2) Consumers willful disregard of the City's rules regarding water and wastewater matters;
- (3) Emergency Repairs
- (4) Insufficient water supply due to circumstances beyond the City's control;
- (5) Legal Process
- (6) Direction by competent public authorities;
- (7) Strike, Riot, Fire, Flood, unavoidable accident; and,
- (8) Where there is sufficient evidence of potential danger to public health and safety involving the water supply.

SECTION 9: ESTABLISHMENT OF FEES

The following fees shall be added to each water and wastewater account.

DEPOSIT FEES: The deposit for property owners will be \$125.00 and the deposit for property renters will be \$175.00.

METER FEES: These fees must be paid before service is restored.

- a. Tampering with a meter: \$200.00
- b. Broken Curb Stop (Valve): \$150.00
- c. Broken Pin & Lock: \$100.00
- d. Damaged Water Meter: \$350.00

SERVICE FEES: These fees will be added to the account.

- a. Data Log Request: \$20.00
- b. Temporary Service/Cleaning Fee: \$25.00 plus cost of water/wastewater/garbage/debris.
- c. Transfer of Deposit: \$25.00
- d. After hours call-out fee: \$50.00
- e. Returned Check/Bank draft fee: \$35.00 (Repeated offenses may result in consumer being placed on a cash/money order only basis).

RETURNED MAIL FEE:

If water/wastewater bills are returned for insufficient address, incorrect address, no mail receptacle or if a P.O. Box has been closed, the City will attempt to contact the consumer to get the issue corrected. If the issue continues, the service will be disconnected until the reason for the return has been corrected. A service fee of \$30.00 will be added to the account.

SECTION 10: COMPLAINTS & ADJUSTMENTS

If the consumer believes his/her bill to be in error, he/she shall present a claim, in person, at the City Hall of the City of Folkston before the bill becomes delinquent. Such claim if made after the bill has become delinquent, shall not be effective in preventing discontinuance of service as previously described. The consumer may pay such bill under protest and said payment shall not prejudice the claim.

The City will make a special water meter reading (Data Log) at the request of a consumer for a fee of \$20.00. However, should the special reading reveal that the meter was over-read or malfunctioned, no charge to the account will be made.

- a. Water meters will be tested at the request of the consumer upon payment to the City of \$20.00. However, if the meter is found to be malfunctioning, no charge will be made.
- b. If a meter is broken, fails to register correctly or is stopped for any cause, the consumer shall pay an amount estimated from the record of his/her previous bills (minimum of 5 months if available) and/or from other proper data.

SECTION 11: MANDATORY WATER CONNECTION

From and after passage of this ordinance, it shall be required that all residences, business establishments and other structures within the City Limits of the City of Folkston connect onto the City's municipal water system where said structure is within 200 feet of said water line. Said connection shall be made within sixty (60) days of availability of water service.

All new construction within the City Limits of the City of Folkston within 200 feet of the City's water line shall also be required to connect onto said system.

SECTION 12: LARGE METER INSTALLATIONS

The applicant for metered service requiring two (02) inch and larger meters shall pay an installation charge equal to the City's estimated installation cost (including meter, materials, and labor cost), which charge shall be based upon current cost. Such installation shall be permitted only after determination by the City of its ability to meet the required water demand. The City, before approving such services, shall specially establish:

- a. the minimum charge per month
- b. gallons allowed for such minimum charge; and
- c. minimum deposit,

which amounts shall be appropriately higher than those set forth for smaller metered service.

SECTION 13: WATER SERVICE FOR FIRE PROTECTION

The following rate schedule applies to standby water service for sprinkling or other fire protection systems in buildings only. The expense of all such connections to an extension from the water mains shall be assumed by the user. No taps will be allowed which may be used for other than fire protection purposes, and there shall be no connection with any other source of water except in case a tank or fire pump is installed as a secondary supply for such fire protection.

<u>SIZE OF CONNECTION</u>	<u>MONTHLY RATE</u>
2 INCHES	\$6.00
3 INCHES	\$8.00
4 INCHES	\$10.00
6 INCHES	\$12.00
8 INCHES	\$14.00

SECTION 14: WATER FOR LAWNS

A special condition applies in the case of water furnished by the municipal system used regularly and solely on any lot of land for sprinkling lawns or gardens, or for any use in a manner so that the water does not enter the municipal wastewater system. Although such customer's wastewater service charge is related to water usage, such customer may secure a reduction in the amount of wastewater service charges to be paid by installing a second meter.

For such water used for lawn purposes, a wastewater charge will not be levied to that meter placed for lawn watering only, but will be billed the minimum, plus actual water usage. Any customer electing to install such a meter will be obligated to pay the specified connection fee.

SECTION 15: CONFLICTING ORDINANCES

All ordinances and part of ordinances in conflict herewith are hereby repealed.

SECTION 16: REVIEW BY MAYOR AND COUNCIL

The water and wastewater (sewer) rate schedules will be reviewed at least annually by the Mayor and Council and revised as needed to provide for the receipt of adequate revenue to meet the requirements of debt service, operation and maintenance, and establishment of required reserves. No free service or use of facilities will be permitted and all new service connections shall be metered.

SECTION 17: EFFECTIVE DATE

This ordinance shall take effect for water and wastewater services supplied on or after January 1, 2024.

PASSED AND ADOPTED this 20th day of November 2023.

Lee Gowen, Mayor

Darlene Williamson, City Clerk
